eng-arwa

"Highly skilled Software Engineer specialized in Frontend Development with a strong focus on **Angular**. Proven track record in building scalable systems and collaborating on regional projects with **Elm Saudi Company**. Experienced in writing clean, maintainable code and leading projects from scratch to delivery."

EXPERIENCE

Frontend Developer | Angular Lead

Kitsys Company

2023 – Present

Sana'a, Yemen

- Project Lead:** Architected and developed the internal **Helpdesk** and **Security Management** systems from scratch, implementing full-scale UI and secure RBAC.
- Core Contributor:** Spearheaded frontend development for major enterprise projects including **Supplier Portal**, **Customer Portal**, and **Onboarding** systems.
- Performance Expert:** Implemented **Lazy Loading** and **OnPush Change Detection** strategy, optimizing application responsiveness and scalability.
- Technical Leadership:** Managed the full lifecycle of frontend development, ensuring high code quality and seamless API integration.

Angular Developer

SmartMind (Contractor for Elm KSA)

June 2023 – Dec 2023

Sana'a, Yemen

- Developed high-performance modules for **Tageem** and **Ajer** platforms in collaboration with **Elm Saudi Company**.
- Built consistent and reusable UI components using Angular Material and PrimeNG.

Frontend Developer

Unicom Group

Sept 2022 – 2023

Sana'a, Yemen

- Translated complex Figma wireframes into interactive web applications using JavaScript (ES6) and jQuery.
- Specialized in responsive design and SEO-optimized business websites.

KEY PROJECTS

Offers & Marketing Management App

Client Project

2023

- Multi-tenant Architecture:** Engineered a platform for merchants to independently manage discount codes and dashboards.
- Logic Engine:** Developed a complex commission calculation system for marketing performance tracking.
